

WEBINARS ON

AFRICAN SWINE FEVER (ASF): PREPARING FOR ASF Diagnosis in ASF (Reference laboratories)

DATE: June, 18

TIME: 09:30 to 11:30 [Central America]

OBJECTIVE: That the official veterinary services and those responsible for diagnosis in the countries of the region are aware of ASF confirmatory diagnosis services offered by international reference laboratories, in order to adequately plan the strategy to be implemented for sending samples suspected of ASF.

Inform about the services offered by the WOAHP Collaborating Centers and the procedures to access them.

TARGET AUDIENCE: Ministers of Agriculture and Livestock, official veterinary services, experts responsible for ASF Diagnostic Laboratories, private veterinarians, associations of pig farmers and breeders (and the entire livestock sector), and veterinary associations.

AGENDA

09:30 - 09:40
